

COLOUR COMPARISON TABLE FOR POWDERCOAT COLOURS

Use of Table

1. Select colour from alphabetic listing
2. Confirm Powdercoat Manufacturer
3. Read off Pro-Dec Colour and Match Grade

eg: To match Dulux "OFF WHITE" - use "OFF WHITE"
for an "EXCELLENT" match

The colours selected have been chosen as best under "daylight" fluorescent lighting conditions. It should be noted that colour perception is very subjective and varies significantly according to:

- from person to person
- the type and amount of light (ie indoors/outdoors or incandescent/fluorescent)
- the surface reflectivity & finish (matt, gloss, satin)
